LEGEND

Bearings are grid bearings UTM NAD83 (CSRS) 2002.0, Zone 11.
The UTM coordinates and estimated absolute accuracy achieved are derived from dual frequency carrier phase GNSS observations, using Natural Resources Canada's Precise Point Positioning (PPP) service.
This plan shows horizontal ground-level distances, unless otherwise specified. To compute grid distances, multiply ground-level distances by the combined scale factor of 0.9995512 at A1.
The combined scale factor has been determined based on an ellipsoidal elevation of 476 metres.

Note: This plan shows one or more witness posts (shown Wt) which are not set on the true corner(s).
